To Whom it May Concern:

I am writing to express my concern about the unethical manner in which Councilman Cullars behaved during this current special election cycle. He has attempted to intimidate both voters and the candidate he determined was unfit based on the color of his skin, Chris Ketrow. Mr. Cullars harassed the Ketrow family at their home and made false accusations against them, continually over social media.

From the beginning of the campaign period, Mr. Cullars attempted to intimidate voters and engaged in racial name calling, even going as far as telling potential voters they were "Hanky headed porch negroes" if they did not vote for his candidate, Ms. Deborah Rainey, whom he referred to as his "Black Queen," for contextual purposes. All of this derogatory speech directed at Mr. Ketrow stems from the fact that Mr. Cullars does not believe a "White man can lead district 1 to the Promised Land."

Mr. Cullars repeatedly drove by Mr. Ketrow's residence on Depot St and recorded himself, all the while making deliberately derogatory and divisive comments, including "Doesn't he know District one is for Blacks?"

All in all, Mr. Cullars should be held accountable in some way for his behavior towards people he is supposed to represent through his position on City Council.

Thank you
